

poly butadiene rubber 1220-OFF grade  
(PBR OFF)

TRADE NAME	PBR OFF GRADE
Mony Viscosity	< 41 & >50
Heat Loss %	> 0.5
HS CODE	40022000
<b>ELX</b> Product Code	4404

✓ Main application & Characteristics:

This grade does not have the capability of being used in the automobile tire industry because of its non-compliance with the spec.

This grade is used solely in the rubber parts manufacturing industry. The appearance of this grad is the presence of dark brown spots , stickiness , green color and watery spots .

Excluding the important Row Mooney Viscosity index from the target range and increasing the Heat Loss index are other features of this grade. one year has passed from the date of production of the product.
