

Propane Product Specification:

Propane product is produced with the following specification:

Component	Specification	
C ₂ H ₆ and lighter	Max. 1.0	wt. %
C ₃ H ₈	Min. 98.0	wt. %
C ₄ H ₁₀ and heavier	Max. 1.0	wt. %
Total sulfur	Max. 30	wt. ppm

Remark: The Propane product will have a Propane purity of minimum 98.0 wt. %.

Butane Product Specification:

Butane product is produced with the following specification:

Component	Specification	
C3H8 and lighter	Max. 0.5	wt. %
C4H10	Min. 98.0	wt. %
C5H12 and heavier	Max. 1.5	wt. %
Total sulfur	Max. 30	wt. ppm

Remark: The Butane product will have an Butane purity of minimum 98.0 wt. %
